# Great Camp Locations

## **Tin Mountain Nature Center, Albany**

Our Nature Learning Center is surrounded by 140 acres of woodlands with trails that lead to our five-acre Chase Pond, an historic granite quarry, Chase Brook, an active beaver lodge, and much more. The fields and gardens surrounding our 1800s barn and nature center teem with wildflowers, insects, birds, and animals. We swim nearby at Iona Lake.

## **Field Station, Jackson**

The original home of Tin Mountain, the Jackson Field Station is nestled among the spruce and fir on the side of Tin Mountain. Its 228 acres include open fields, forests, trails, numerous ponds teeming with wildlife, and spectacular views of the White Mountains. Many short hikes include the old Jackson to Dundee Town Road, trail to the historic tin mine, path to “Pond Four” and the cellar hole, and trail to the top of Tin Mountain. A swimming hole on the mountain-fed Ellis River offers the perfect place to cool off.

### **Little Chatham Road, Fryeburg**

Our beautiful post-and-beam camp building is tucked among the majestic white pines of the 800-acre Burnell family forest. This location boasts cellar holes from the abandoned village of Little Chatham, vernal pools, wetlands, and a wide variety of native wildlife. Among the many swimming opportunities are the Saco River at Weston's Beach and Lower Kimball Pond.

### **The Mountain Road, South Tamworth**

Expansive views from the mountain meadows of the South Tamworth camp include Mt. Chocorua, hayfields, and the surrounding northern forests. The summer camp is located in an old pasture with stone walls and apples trees. Footpaths lead to a swimming hole on Cold Brook and to the summit of Little Larcom Mountain.
